## **Round Trip:** how it works

### **Suitable for those who want a vehicle reserved from one hour to more days.**

Book a vehicle by indicating start and end (you can also book in advance or check at the time if the vehicle is available), choose the vehicle from the parking lot most convenient for you, use it for the time you need it (from one hour to several days), and by the end of the reservation bring the vehicle back to the same parking lot from which you picked it up.

**How much does it cost? Check out the rate plans on the app.** Starting from:

**2,5€/h + 0,50€/km**

**40€ per day**

**From 101 km, the cost per km is equal to 0,35 €/km**

## **Free Floating:** how it works

### **Designed for shorts point-to-point trips.**

You are not tied to a parking lot but only to a service area. Search for the vehicle closest to you on the map, and unlock it via the app. You can end your reservation in any public parking lot\* in the allowed green areas for free or in the yellow/orange ones paying an extra cost.

\* white non resident or blue

**How much does it cost? Check out the rate plans  
on the app.** Starting from:

**0,30€/min + 1€ unlock fee**

**15 €/hour**

**60€/day**

## **Rental:** how it works

### **Best for long-distance trips. The self service car rental.**

Reserve a car for a day or more and return it to where you picked it up. Choose the car category you prefer, the pickup location, and the package that's right for you. It is the ideal service for tourists who need a car for a few days or for those who need a car available for long term or long distances.

Limited or unlimited mileage. Fuel not included.

### **How much does it cost?**

**Become a member and check the rates on the app (click the **p** on the map) or contact us.**

Variable rates, depending on the season.
